

MUD & MAYHEM **SPRING SPECIAL**

**ADVENTURE
SPORTS**

This is an action packed three hour event designed for individuals and groups. On arrival guests will be divided into groups of up to seven people and will drive three amazing vehicles. Each group will spend about 50 minutes at each activity.

Guests will participate in three of the following activities. The final combination will be decided by Adventure Sports based on weather and total group size.

Argo Cat 6x6

Six Wheels, one driver and lots of fun. These amphibious all terrain vehicles are designed to go through mud, over hills and through swamps. Two levers control the steering to make these vehicles a true challenge.

Powerturn Mayhem Vehicle

A twin seater kart, this unusual vehicle is powered by two powerful engines and is driven by two drivers at a time. The drivers must co-operate to get round the track without mistakes!

4x4 Off Road Driving

Each guest will be given expert tuition on how to drive and control a fully kitted Land Rover. A challenging course is used that incorporates steep hills, gravity defying inclines and lots of mud.

Quad Bikes

Drive 300 cc quads around a challenging obstacle course incorporating dips, slaloms, tight corners and rough ground. Scores are awarded based on the drivers skill and ability with penalties if an obstacle is hit.

Reverse Steer Driving

This converted Jeep provides one of the funniest activities you'll ever experience. Turn the steering wheel one way and the vehicle goes the other. Throw in a blindfold and the results are hilarious!

Off Road Karts

Power around the twists and turns of the circuit using purpose built off road karts. Sitting only inches off the ground the feeling of speed is amazing. Participants will take their turn to race against the clock.

The three hour 'Mud & Mayhem' session normally costs £70 per person.

For a limited time we are offering the package at £50 per person.
